本刊遵循国际医学期刊委员会（ICMJE）对生物医学类稿件的统一要求（ICMJE Recommendations）。

知情同意声明如下。

所有作者在提交稿件时需说明文章内容是否已经知情同意，未经同意，不得侵犯患者的隐私权。若确因科学目的需要，必须获得患者（或其父母或监护人）的知情同意，方可刊登可辨认患者身份（包括患者姓名、姓名首字母或病案号）的文字描述、照片和家谱。否则应删去可辨认患者身份的细节。若为了保护患者需更改其特征性资料，如遗传家谱，则作者应确保这种变更不会歪曲研究的科学意义。论文作者应承担一切违反义务和侵权的责任。

Patients have a right to privacy that should not be infringed without informed consent. Identifying information, including patients' names, initials, or hospital numbers, should not be published in written descriptions, photographs, and pedigrees unless the information is essential for scientific purposes and the patient (or parent or guardian) gives written informed consent for publication. Informed consent for this purpose requires that a patient who is identifiable be shown the manuscript to be published. Authors should identify Individuals who provide writing assistance and disclose the funding source for this assistance.

Identifying details should be omitted if they are not essential. Complete anonymity is difficult to achieve, however, and informed consent should be obtained if there is any doubt. For example, masking the eye region in photographs of patients is inadequate protection of anonymity. If identifying characteristics are altered to protect anonymity, such as in genetic pedigrees, authors should provide assurance that alterations do not distort scientific meaning and editors should so note.

The requirement for informed consent should be included in the journal's instructions for authors. When informed consent has been obtained it should be indicated in the published article.
